11. School - Curriculum Contract Approval

Burlington public schools is revamping its existing social studies curriculum and the School Committee would like to sign a six-year contract with the curriculum provider. There is a significant cost savings in entering into a long-term contract rather than paying annually, approximately \$180,000. Town Meeting approval is required anytime the town would like to sign a contract longer than three years.

The funding for this article has already been approved in a separate warrant article at a previous town meeting.

The subcommittee voted 4-0-0 in favor.
